Business Applications & Power Platform

A GAME CHANGER FOR BUSINESS TRANSFORMATION

Digital Transformation Landscape

5X

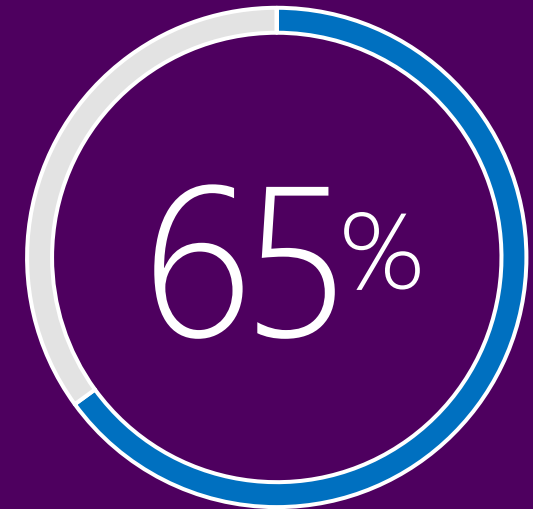

Demand for mobile apps will grow at least five times faster than IT capacity to deliver¹

¹Source: Gartner, How to Deliver Enterprise Mobile Apps Faster 2017

500M

In the next 5 years, 500 million new logical apps will be created, equal to the number built over the past 40 years².

²Source: International Data Corporation "IDC" FutureScape: Worldwide IT Industry 2019 Predictions

By 2024, low-code application will be responsible for more than 65% of application dev. activity³

³Source: Gartner 2019 Magic Quadrant for Enterprise Low Code Application Platforms

Power Platform Momentum

“Microsoft 365, Dynamics 365, and the Power Platform, on top of what we’re doing with Azure, is the core of what we are doing as a company.” --Satya Nadella

> 3.5M
Monthly Active Developers on the Power Platform

> 700%
growth in Power Apps production apps in the last year

> 300%
growth in Power Apps Monthly Active Users in the last year

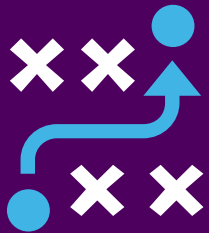

Leader in the Forrester wave for Low Code Development Platforms for AD&D Pros

Leader in the Gartner MQ for Enterprise Low Code Application Platforms

Who Is this Relevant to?

Organisations that have difficulty accessing relevant business data, getting accurate reports, and meeting business needs quickly

Processes & Systems

- Critical & complex Excel spreadsheets
- Access Databases
- Industry specific applications
- Legacy or End of Life

Single Source of Truth

- Proprietary systems
- CRM or ERP systems
- Data duplication
- Siloed teams & departments
- Acquisitions & mergers

Secure Remote Working

- Legacy systems offsite access
- Clunky, expensive VPN/MPLS networks
- Unified Authentication methods
- Legacy Remote Desktop/Terminal Services

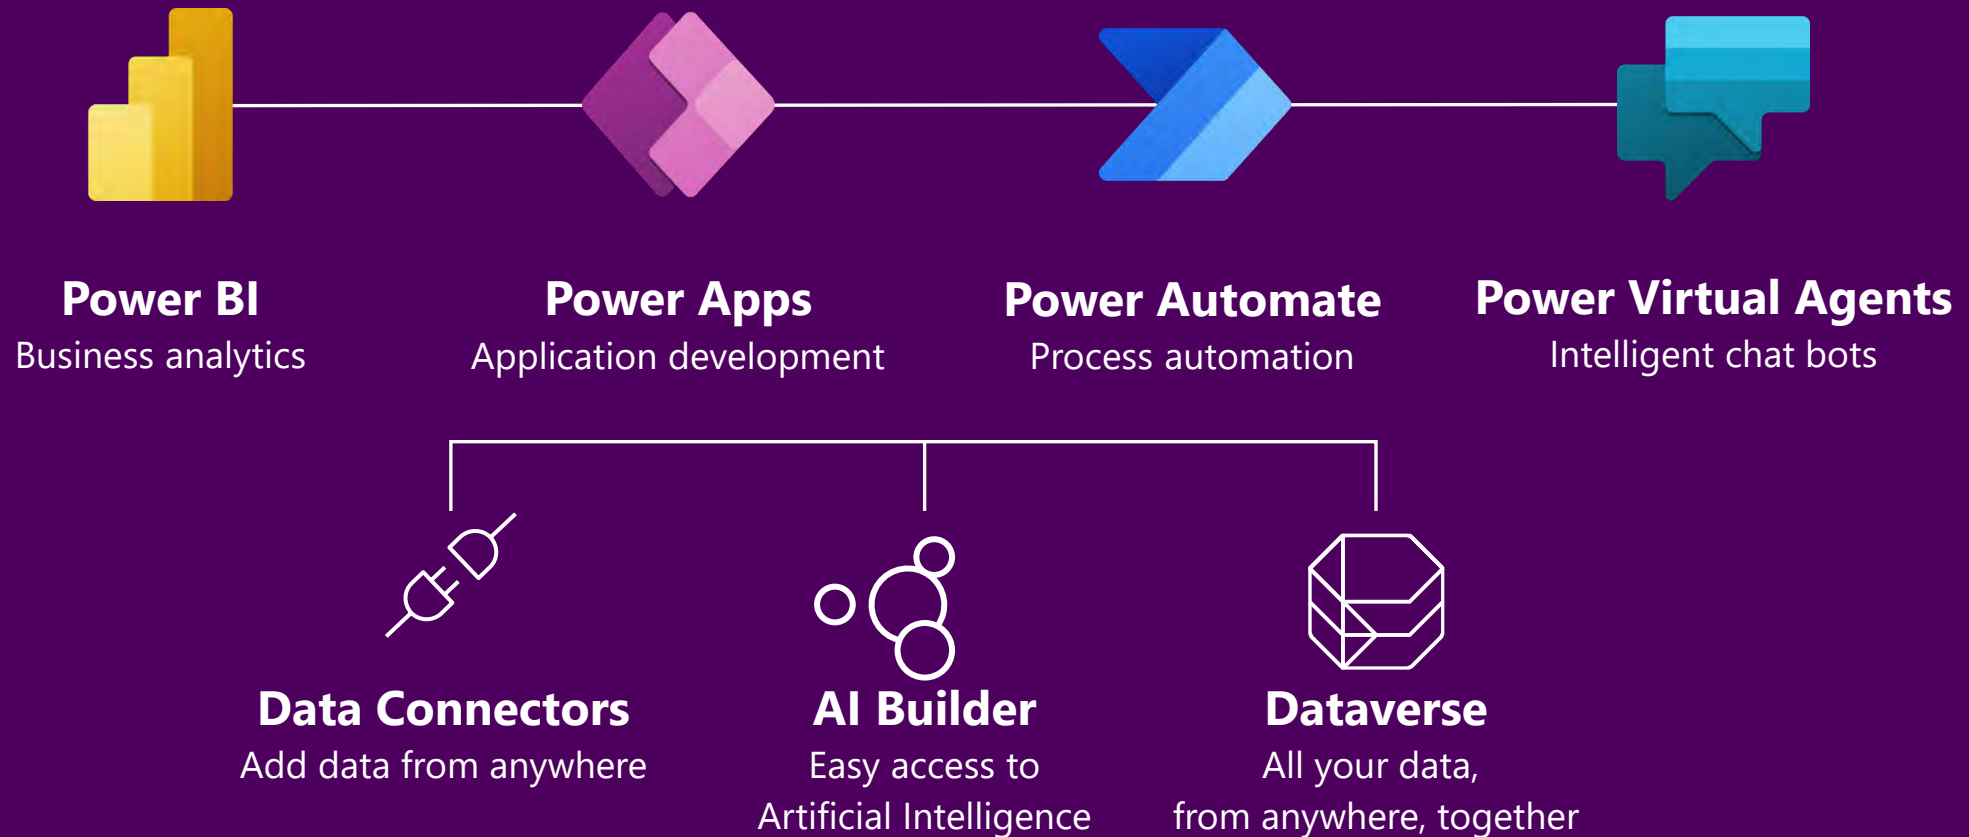

Visibility & Governance

- Software asset management
- Application governance & prioritisation
- Policies & good working practices

What is the Power Platform?

A Microsoft SaaS product that allows a business to unify data and automate process by extending existing systems, and meeting new needs using these core services:

Where

- Power Platform is a cloud hosted service, no additional infrastructure required
- Works with existing data sources, regardless of location
- Runs on Azure

Microsoft Dataverse

Rolodex
Solution

Why Invest In Power Platform?

- Provides integrated reporting and automation previously unavailable across multiple data sources
- Achieve a Standard Data Model specific to your business without a costly Data Warehouse
- Pre-built templates and solutions, that can be customised to your business

Processes & Systems

- Clear process flows
- Scalable SaaS Solution
- Pre-built solutions
- Always up-to-date

Single Source of Truth

- Get data from anywhere
- Connect to older applications
- One place for data
- Extendable to new systems & services

Secure Remote Working

- Available anywhere
- No VPN required
- Azure AD SSO
- Role-based security

Visibility & Governance

- One view of processes & applications
- Manage your business applications simply
- Realtime reporting on usage & adoption

IT is all about you
